WEB DESIGN PRICING

Whether you have a large or small business, are a visual artist, a makeup artist, fashion designer, model, actor, singer, dancer, musician or entertainer, or own any kind of store or retail outlet, you are in need of a website. Without a presence on the web you are not reaching the estimated 15 MILLION Australian Internet users who may very well be interested in your business or product you have to offer.

The services I offer range from very affordable web packages for those in need of simple and straight forward websites to promote themselves or their business, to very indepth and complex custom web design for small to large business owners. I work for local, National and International clients, as distance is no barrier when working on the Internet.

PRICING FOR ADVERTISING, WEB GRAPHICS, BROCHURE/CATALOGUE DESIGN, POSTER DESIGN, PROMOTIONAL ITEMS, AND PACKAGING

As these products and designs will differ greatly, please contact me directly for an obligation free quote.

Advertising

I can design a range of advertising for your business, website, band or event for print or use on the internet. Increase traffic to your website with a 5 banner advertising campaign to display on various sites, grab viewers' attention with a half page yellowpages advertisement or draw people into your trade booth with posters and signage. Whatever your need, I am able to design a solution sure to satisfy.

Web Graphics

A key factor of the internet is visual appeal. Whether you are selling a product or service, or just want to share your thoughts and ideas, visitors to your website are more likely to stay if they like what they see. Well designed graphics can help tell a story, sell a product, or simply entice your visitors to stay a little longer. I can create graphics for professional services, "buy it now" buttons, icons for shopping carts, myspace/ twitter backgrounds, informational graphics or any other type of advertising you may need.

Promotional Clothing & accessories

Screen printing on T-Shirts for team sports, band merchandise, corporate seminars, business uniforms and other applications gives a professional finish to your event or workplace. Other promotional materials include mugs, mouse pads, pens, bags, drink bottles, keyrings, apparel, packaging and gifts.

CD Covers, Labels & Inserts

If you need cover artwork for an up and coming CD release or a label designed for your seminar or tutorial CD's I can help. This level of professional presentation is important in both the corporate and music industries, indeed in any industry it is important to present yourself and all your products in the most professional manner possible.

Packaging Design

If you are selling a product you need to think carefully about the way you package your product to appeal to your potential customers. The packaging of a product is the first point of contact for your customers to your brand. The design should reflect your brand's values and be consistent with the rest of the corporate design of your business. For instant recognition or to grab people's attention from a distance, a well designed package could be just what you need.
